Dear Nick

Following recent discussions and meetings over the last 3-6 months we are writing to confirm our professional advice in connection with the Bee Group of Companies.

The various individual companies are proving very successful, far more so than originally anticipated in the current economic market. It is therefore our professional opinion that you consolidate ALL companies within the Bee group into one holding company.

This will enable you to operate more far efficiently from an administrative perspective with paperwork from the various Government Agencies being considerably reduced. The reduction in this paperwork will of course result in a big reduction in admin time and therefore costs making you more financially efficient. In addition your corporation tax rates and PAYE obligations will of course be improved. All in all, taking account not only financial matters, but all aspects of business, the new company will be in a fine position to move forward for years to come.

With this in mind we recommend that the companies formally trading as:

Henley Bathrooms Ltd  
Bee Bathrooms Ltd  
Bee Plumbing

Be closed on the official register held by Companies House and the customer base be transferred to and supported by Baytree Construction (Berkshire) Ltd. We have already commenced the closing down with Companies House, but this will take a few months to complete and integrate fully, but from now onwards we recommend you move forward under the Baytree banner.

We will of course ensure that all matters are correctly completed with not only Companies House but also HM Revenue and Customs.

If you have any questions please do not hesitate to contact me.

Kind regards

Yours sincerely

**Barry Chandler**
